The 2<sup>nd</sup> edition of JESR 1<sup>st</sup> volume consists of several articles from various institutions from different countries. This issue comes with 10 articles from inter- and multidisciplinary engineering works. Most of the articles are original research in the field of electrical engineering, mechanical and industrial engineering, civil engineering and applied science. Research articles in biomedical engineering and architecture are also included in the contribution.

We believe this 2<sup>nd</sup> edition will contribute wider in the area of engineering and scientific research, industrial innovation and community development.

We do hope this issue will provide some significant for the readers.

**Your sincerely,**
