Table of Contents	ii
Preface	iii
Optimization of Microgrid Battery Capacity using PSO with Considering Islanding Operation	1
Analysis of AVO and Seismic Inversion for Reservoir Characterization (Case Study: EP Field, South Sumatera Basin)	5
Comparison of Types and Size of Biomass on Pirolysis Combustion Toward The Results of Bio-Charcoal and Liquid Smoke.....	10
Soil Quality Assessment in Relation to Food Crop Productivity to Support Agribusiness- Based of Dry Land Management by Scoring of Soil Quality	16
Web-Gis Application Of Agricultural and Food Crop Management.....	25
Addressing Semantic Interoprability, Privcy and Security Concerns in Electric Health Records.....	31
Value Chain Analysis of Cassava (Manihot Esculate) in Toba Samosir Regency, North Sumatera, Indonesia	39
Optimazing Groundwater Aquifers Potential ini The Development of Irrigation Wells for Agriculture Using Geo-Electrical Method	44
A cans waste classification system based on RGB images using different distance of k- means clustering.....	53
Enhancing Visual Abilities in Solving Mathematics Problems	58

This 2nd Volume - 1st Edition of JESR comes with several articles in the field of engineering and applied science research. We appreciate all contributors for public attention, consideration and suggestions regarding the manuscript quality of this June 2020 issue.

This issue contains 10 research articles, they are including: electrical and energy research, geophysical engineering, information technology, industrial engineering, civil and water resources, and applied mathematics in engineering.

We hope this issue, and forward of JESR may contribute significant for the reader's engineering and scientific knowledge as well as the potential of technology applications. We would like to thanks for a tremendous supports and services from the reviewers and all contributors.

With best regards,
